

## ProClean Teak TEAK CLEANER

Wooden, teak surfaces.

### Description

**ProClean Teak;** It is a powdery acidic material used for cleaning and polishing wood, teak, oak surfaces and decks. It leaves a clean and shiny surface after cleaning.

### Directions For Use/Applications & Dosage Rates General Cleaning

ProClean Teak should be diluted with distilled water at a ratio of 5–10%. The prepared solution should be applied to wooden surfaces using a water jet or spray device.

Allow the solution to remain on the surface for 10–30 minutes, then brush thoroughly. If necessary, rinse the surface with distilled water after brushing to ensure complete cleaning.

Acid-Based Cleaner

### Summary

- Completely environmentally friendly and harmless and does not threaten human health.
- It does not accumulate in nature.
- Can be used on all kinds of wood and teak surfaces.
- Can be used on any tree surface where lime, tarnishing, microbiological contamination is present.
- It has a polishing effect on the cleaned surface and gives it a new appearance.

### A) Organic Properties

Physical State (20°C) : Crystalline powder  
Color : White  
Odor : Odorless

### B) Physical Properties

pH : 1.0–2.0  
Molecular Weight : -  
Explosion Limit : No  
Flash point : No  
Density : 1.05–1.15 g/cm<sup>3</sup>  
Solubility : Dissolves in water in certain proportions.

### Storage Conditions

Packaging Type : 25 kg bucket  
Storage Period : 3 years

### Approvals & Certificates

Product No : SP-KS-077
