

ProPure CWT 3D ERTREAT COOL-3D

Frost and corrosion protection

Description

ProPure CWT 3D is a concentrated product designed to protect cooling systems from freezing. It can be used in situations where there is a risk of freezing and can be mixed with water in any proportion. Additionally, it is supported by anti-corrosive agents that safeguard the system against corrosion and rust.

Cooling Water Treatment

Summary

- Protects systems from freezing.
- Prevents corrosion in the system.

A) Organic Properties

Appearance

Physical State (20°C): Liquid
 Color : Yellowish transparent
 Odor : Characteristic

B) Physical Properties

pH : 10.0-11.0
 Molecular Weight : -
 Explosion Limit : No
 Flash Point : No
 Density : 1.15-1.25 g/cm³
 Solubility : Completely soluble in water.

Storage Conditions

Packaging Type : 25-30-60-200 liters original plastic drums
 Storage Period : 3 years

Approvals & Certificates

Product No : SP-KS-316
