

ProTank Fresh ER-CLEAN FRESH

Tanks and cargo holds

Description

ProTank Fresh is a water-based liquid used to eliminate bad odors. It is used in cargo tanks or cargo holds if the smell of the previous cargo is felt after cleaning. It is easy to use, safe to use on most common metals and coatings.

Directions For Use/Applications & Dosage Rates General Cleaning

Method	Dosage	Apply Temperature	Washing Medium
Direct Injection via Tank Cleaning Machine	Total 2 litres to be injected during one full cycle	Amb	SW/FW/TFW
Spraying Method	10%	Amb	FW/TFW

SW: Sea Water / FW: Fresh Water / TFW: Treated Fresh Water

Spraying Method

It can be applied using the spraying method. Spray the diluted solution to 10% with water on the area to be applied. For a tank with a volume of 400 m³, usually 1-2 liters of product are enough. After application, the product should be allowed to evaporate for a reasonable period of time.

Direct Injection via Tank Cleaning Machine

The product, diluted by 0.1-1%, can also be added to the final rinse water after tank cleaning. Usually, 2 litres of product are enough. After all these applications, the tank should be thoroughly ventilated.

Tank & Cargo Hold Cleaners

Summary

- Eliminates the unpleasant odor caused by insufficient cleaning after tank cleaning.
- It is safe to use on most common metals and coatings.
- It is completely biodegradable.
- Non-flammable.
- It has excellent deodorizing properties. It provides the removal of aromatic solvents, fish oil and other bad odors.

A) Organic Properties

Appearance

Physical State (20°C): Liquid

Color : White, light yellow

Odor : Soft scented

B) Physical Properties

pH : 6.0-8.0

Molecular Weight : -

Flash Point : -

Density : 1.00-1.10 g/cm³

Solubility : Completely soluble in water.

Storage Conditions

Storage : It should be stored at room temperatures.

Packaging Type : 25-200 liters original plastic drum/barrel

Storage Period : 3 years

Approvals & Certificates

Product No : SP-KS-306
