

## DESCRIPTION

It is a concentrated liquid produced to remove pet coke from cargo and storage tanks. With its strong formulation **ERCLEAN PCS** also eliminates unpleasant odors and mineral deposits from tanks and closed areas.

Product Name	: <b><u>ERCLEAN PCS ( PET COKE REMOVER)</u></b>
Document No	: SP-KS-048
Chemical Name	: Chemical Mixture.
Usage Area	: Cargo holds, tanks

### A. ORGANIC PROPERTIES

Appearance	
Physical Status (20°C)	: Liquid
Color	: Transparent yellow liquid
Odor	: Chlorine

### B. PHYSICAL PROPERTIES

pH (in conc)	: 11,2 – 12,5
Molecular Weight	: -
Flash Point	: -
Density	: 1,05-1,15 gr/cm <sup>3</sup> at 20 C <sup>0</sup>

## APPLICATION, FEATURES & BENEFITS

- ✓ Can be used on all metal and metal alloys. No known effect to plastic and rubber compounds
- ✓ Safe to use over paint.
- ✓ Non toxic
- ✓ Non Flammable
- ✓ Non Conductive
- ✓ Soluble in both sea and fresh water
- ✓ Can be used together with specific range of other products

## **STORAGE INFORMATION**

Store at moderate temperatures

Packing : 25-30-210 L sealed plastic drums or barrels

Storage Period: 3 years.

## **DIRECTIONS FOR USE/ APPLICATION RATES AND DOSAGE RATES**

ERCLEAN PCS can be used both diluted and undiluted. Considering the contamination rate user is the one to determine how to use it. While calculating the needed quantity of ERCLEAN PCS keep in mind that 1 L covers 8-10 meter sq. Generally for low contaminated areas 1/1 dilution with water would be enough. Otherwise, if contamination is heavy, use ERCLEAN PCS undiluted. All cleaning methods are appropriate. For heavy and hard stain deposits use brush, mop or hard sponge. While cleaning heavy accumulations, do not forget that you may need to repeat all process until results are satisfactory. After cleaning, rinse with plenty of water.
