- ✓ Can be used with other products like Phosphoric, Nitric and Citric Acid.

STORAGE INFORMATION

Store at moderate temperatures

Packing : 25-30-200 L sealed plastic and tin drums

Storage Period: 3 years

DIRECTIONS FOR USE/APPLICATIONS & DOSAGE RATES

For Tank Cleaning, especially with the tanks carrying diesel oil, benzene and oil; use 0,2% - 0,4% cleaning solution and circulate or spray with water jets. You may use same dosing for Hydro carbon freeing the tanks. ERCLEAN CTC will clean the environment and prevent from irritating smells which provides a healthy and safe working condition in closed, unventilated areas. **In heavy-duty cleanings**, use the product directly, without dilution over the oily surface and wait for 5-10 minutes and clean the surface by a brush.
