

## **SWIMMING POOL TEST KIT**

### **CHLORINE TEST:**

Chlorine Test Kits for Water (Sens.Chlorine 0,1 to 3,0 ppm)

1. Rinse the test tube with the water to be tested.
2. Add 4 drops “**chlorine indicator**” and shake it well.
3. Compare the yellow color to color reference chart to determine concentration of chlorine in mg/ l.

### **pH TEST:**

(Sens.6,8-8,2)

1. Rinse the test tube with the water to be tested.
2. Add 4 drops pH Indicator and shake it gently.
3. Compare the red color to color reference chart to determine concentration of chlorine in mg/l.
